### AUDITOR'S REPORT.

The undersigned, having been appointed Auditor to examine the foregoing accounts of the Selectmen and Town Treasurer for the year ending March 1, 1883, reports that having carefully examined the same, he is satisfied that they are correctly cast, and supported by proper vouches, and that the above statement made by the said Selectmen with regard to the present financial condition of the town appears to be correct.

CYRUS A. GOVE, Auditor.

Fremont, March 2, 1883.

# Annual Report of School Committee.

Your committee respectfully submits the following annual report:

Our schools the past year, have been conducted with as much success and as few failures as could (with a few exceptions) be expected. By visiting the schools without notice, and with as little ceremony as possible, I have been better able to see them in their normal condition, without the excitement and the special preparations which usually precede formal expected visits; and good teachers are generally very willing to have their schools seen as they are. Of course they desire that their merits should be observed and appreciated, but they also desire to have their faults indicated that they may correct them.

The whole number of children in town, between the ages of five and fifteen attending school not less than two weeks, is one hundred and twenty-five; the number of children of each sex, between the ages of five and fifteen not attending school was eleven—males five, females, six.

The amount of money required to be raised

by law	\$409 50
Received from Literary Fund	60 20
School district No. 4 raised	25 00

Total	\$594 70

District No. 1	\$129 89
“ “ 2	171 63
“ “ 3	98 04
“ “ 4	90 99

## DISTRICT NO. 1.

Two terms of ten and nine weeks were taught by Miss Flora A. Gordon. Whole number of different scholars attending two weeks or more, first term, 22; average daily attendance, 19; visits by parents and citizens, 20. Second term, whole number of scholars, 23; average attendance 21; visits, 16; wages of teacher per month, including board, first term, \$24; second, \$28. This school has fully sustained its former reputation “as one of the best.” How could it be otherwise with a faithful and efficient teacher, and studious well disposed scholars?

## DISTRICT NO. 2.

First term of ten weeks was taught by Miss Mabel Stevens. Whole number of scholars attending two weeks or more, 53 ; average daily attendance 45 ; visits by parents and citizens 25 ; wages, including board, \$32.

Miss Stevens is a lady of fine literary attainments, a thorough disciplinarian and a graduate from the State Normal School. In her instruction, no point in the lesson is superficially passed over, but what is obscure is dwelt upon until comprehended by the dullest intellect. Not confined to text books, she presents any information relating to the lesson which may help fix it in the memory. The progress made by the scholars in their several studies was excellent. Your Committee regretted very much that her services could not be obtained the second term.

Second term of nine weeks was taught by Miss Mary E. Hilton. Whole number different scholars attending, 45 ; average daily attendance, 43 (as per register) ; visits by parents and citizens, 19 ; wages, including board, \$36.

The school at the commencement of the term was in a fine condition to advance. There was no advance but rather a retrograde movement, there was no union of sympathy between teacher and scholars, no order no nothing. The school should have been closed at the end of the second week.

## DISTRICT NO. 3.

Two terms of eight and ten weeks were taught by Miss E. B. Rowe. Whole number of scholars attending first term, two weeks or more, 19 ; average attendance, 13 ; visits by parents and citizens, 12. Number attending second term, 23 ; average attendance 19 ; visits by parents and citizens, 14 ; wages per month, including board, \$30. No one has greater interest in the progress of her scholars than Miss Rowe. Intellect and heart, soul and body, are put in requisition. Fine progress was made during both terms. If her services are in the market another year, committee man, purchase them.

## DISTRICT NO. 4.

Last, but not least. Two terms of school were taught by Miss Susie J. Goodhue, of nine weeks each. Whole number of different scholars, first term, 28 ; average attendance, 27 ; visits by parents and citizens, 8. Second term, whole number attending, 28 ; average attendance, 27 ; visits by parents, 12. The average daily attendance was the best in

town, which reflects much credit on the small children of District No. 4. Under the care of Miss Goodhue, this school has improved very much during the past year. No pains have been spared by her in the discharge of her duties. She is firm and decided and deals impartially with her scholars, all the while gaining their love and esteem.

### ROLL OF HONOR.

This includes all who were present every half day during the several terms without being tardy:

DISTRICT No. 1.—*First Term*.—Effie L. Sanborn, Alice S. Sanborn, Jacob W. Purington, Etta J. Hall, Cora E. Brown, Freddie H. Bishop. *Second Term*.—Effie L. Sanborn, Alice S. Sanborn, Etta J. Hall, Fannie M. Purington, Cora E. Brown, Freddie E. Hall, Freddie H. Bishop, George M. Purington.

DISTRICT No. 2.—*First Term*.—Annie Beede, Aaron Poor, Nellie J. Robinson, Abbie Todd. *Second Term*.—Amos Benfield, Affie Todd, Alice Scribner.

DISTRICT No. 3.—*First Term*.—Alice A. Trickey, Charles A. Osgood. *Second Term*.—Alice A. Trickey.

DISTRICT No. 4.—*First Term*.—Clara M. Sanborn, Laura W. Sanborn, Edna F. Smith, Flora I. Trickey, Hattie W. Burleigh, Mabel F. Burleigh, Alice Burleigh, Geo. W. Burleigh, Leonard Trickey. *Second Term*.—Clara M. Sanborn, Laura W. Sanborn, Gertrude Sanborn, Edna F. Smith, Emma M. Norcross, Fred B. Smith, Mabel F. Burleigh, Alice L. Copp, Albert A. Copp.

The Prudential Committees have taken interest in our schools, and have discharged their duties in a faithful and impartial manner, with the exception of one not sending in the school register until quite a late date.

Of teachers and pupils and the work of instruction, your Committee can generally report favorably, and in some instances with high commendations. Teachers labor at an utmost insurmountable disadvantage, who have to encounter the adverse influences of the family at home. Many a bitter and angry feeling, much irregularity of attendance, dissatisfaction and complaints would be prevented, if the work of the school-room could be understood at home. When the teacher's varied, difficult and exhausted employments are fully apprehended by parents, then will the prosperity of our schools be secured.

J. B. MARTIN, S. S. Committee.

Fremont, Feb. 19, 1883.
